Orbit Research
at **1-888-606-7248**

- Specially designed by **Orbit Research**, based on the popular **TI-36X Solar** calculator from **Texas Instruments**
- Perfect for students of junior high school algebra to college calculus
- Easy for teachers to help with - LCD display and functionality are identical to the standard TI-36X Solar
- Clear, high-quality, natural speech. Each key is spoken when pressed. **Repeat facility** to speak the display at any time
- Choice of speech modes for quiet or verbose operation
- Unique learning mode for key identification without interrupting operation
- Ergonomically designed for use by the visually impaired
- Over 127 scientific functions including 1 and 2 variable statistics, trigonometry and unit conversion
- Small and light weight (pocket size, 11 oz.)
- Dimensions: 6.2 x 3.0 x 1.3 inches
- Large, tactile, functionally zoned keys. Backspace/correction key
- High capacity rechargeable battery for over 6 hours of continuous operation
- Battery or AC adapter operation
- Easy on/off control, auto power-off
- Protective snap cover
- Included accessories: High quality earphone for private use, AC adapter
- One year limited warranty from Orbit Research
- Permitted for use on College Board Tests: AP, SAT and PSAT/NMSQT*

Introducing **ORION TI-36X**

Ideal for Algebra I and II, Geometry, Trigonometry, Statistics, Calculus, Computer Science, Biology, Chemistry, Physics and Engineering

Scientific Functions

- 10 digits plus 2 digit exponent (-99 to +99), 12 digit internal accuracy
- One- and two-variable statistics for Linear Regression and trend line analysis
- Fraction entry, operation and conversion to decimal
- Trigonometric functions in degrees, radians and grads
- Hyperbolic functions
- 10 Metric/English conversions
- 8 Physical constants
- Three Memories
- Combinations and Permutations
- Common and natural logarithm
- Universal powers and roots
- Reciprocals and factorials
- Polar / rectangular conversions
- Conversion from degrees, minutes, seconds to decimal degrees and vice-versa - results spoken with appropriate units
- Calculations and conversions in decimal, hexadecimal, octal and binary number bases
- Boolean logic operations, computer math
- Percent operations
- 15 levels of parentheses
- Engineering and scientific notation
- Fixed decimal capability
